

PROMASTER PLUS

For sod and turf production on heavy duty sports fields

- Highest quality varieties
- Superior technical quality
- Superior quality of turf produced
- Generates highest margin

The idea behind ProMaster Plus

DLF launched the ProMaster mixture for professionals. ProMaster is used for turf (sod) production and on very prestigious stadiums. The success of ProMaster has led us to further work in this segment. The concept behind ProMaster Plus is to design the ultimate mixtures for turf production for specific regions and at the same time to work with the state of the art within technical quality. An example of a ProMaster Plus mixture can be selected from four of the very best smooth-stalked meadow-grasses each one adding unique benefits to the entire mixture.

ProMaster Plus

SOD Quality for Stadiums and Arenas

Example Composition	
Smooth-stalked meadow-grass 1	25 %
Smooth-stalked meadow-grass 2	25 %
Smooth-stalked meadow-grass 3	25 %
Smooth-stalked meadow-grass 4	25 %
